### WORK EXPERIENCE

---

Resume Worded, New York, NY

09/2015 – Present

*Augmented reality startup with 50+ employees and \$100m+ annual revenue*

#### Big Data Engineer

- Designed scalable big data processing pipelines using Hadoop, Spark, and other distributed computing technologies to process 100+ Petabytes monthly.
- Created ETL (extract, transform, load) workflows to extract data from 30+ sources, transform it into a standardized format, and load it into a data warehouse for further analysis.
- Built and maintained 70+ dashboards and reports to monitor data quality, usage, and performance metrics using Grafana, Kibana, and Tableau.
- Partnered with 110+ data scientists to translate their needs into technical requirements, data models, and data architecture.

Polyhire, London, United Kingdom

10/2012 – 08/2015

*Provides quality assurance and control testing for global markets*

#### SQL DBA

- Installed and maintained a proprietary MSSQL database system with 1,200+ users within 72 hours of employment.
- Reduced hardware requirements for company applications from 60+ servers to 10, saving \$50K in annual licensing costs.
- Installed servers, development machines, data storage devices, and WAN lines to support 210+ staff members.

Growthsi, London, United Kingdom

07/2010 – 09/2012

*Career training and membership SaaS with 150,000 paying users*

#### IT Security Engineer

- Redesigned and developed a NAC authentication system that enhanced the network security of Growthsi by 74%.
- Managed network security, DNS, VPN, and firewall infrastructure, which helped to achieve a 94% uptime.
- Assisted in developing an advanced Biometric Management System, which enabled 140+ authorized employees to access critical system resources.
